Subject: PLP permitting in the news....
Date: Thursday, January 31, 2013 4:27:18 PM

from the pebblewatch website 1/27/13.....

<http://www.pebblewatch.com/>

Pebble Limited Partnership has said it plans to release a mine plan and advance to permitting before the end of the fiscal year. This issue of Pebble Watch explores the topic of permitting in Alaska. What is the process? What can we expect from a mine plan? What regulatory or legislative items may affect development of the proposed mine?

Extras

New [Pebble Watch permitting guide](#) developed to highlight the various permits that will likely be required by PLP. Use it to find out which permits include a public input period.

[Q & A with Sharmon Stambaugh](#), large mine project coordinator with Alaska's Department of Natural Resources.
